

Dear Manhattan Beach Citizens,

In 2008, the voters of Manhattan Beach approved Measure BB – a \$67.5 million bond to construct and modernize Mira Costa High School. On behalf of the Board of Trustees, we are proud to announce the completion of the project, which includes:

- New 57,000 sq. ft. award-winning Math/Science classroom building with state-of-the-art science labs
- 44 completely modernized classrooms, with new orchestra and band rooms.
- Beautiful 300-seat small theater/multi-purpose room
- New 90,000 sq. ft. university-caliber quad, featuring a satellite cafeteria, seating areas, and gathering area large enough for all students

All of this was completed on time with funds designated for campus improvement.

THANK YOU MANHATTAN BEACH!

Mr. Bill Fournell, MBUSD Board President

Dr. Michael D. Matthews, MBUSD Superintendent
